PROFILE

Software engineer with 9+ years in software development, including **7+ years of PHP** with **Laravel** as the primary framework, mostly on B2B e-commerce systems for Australian clients. I build and maintain **REST/GraphQL APIs**, design databases, optimise queries and caching, and have delivered **10+ payment and shipping plugins** for WordPress/WooCommerce, Magento 1 & 2 and Shopify. Every system I work on runs in Docker with CI/CD pipelines, and I administer the Linux servers behind them myself.

CORE SKILLS

PHP & Frameworks — 7 years of PHP: Laravel (primary), Symfony, CodeIgniter, CakePHP, Yii; Composer, Packagist.

Databases — MySQL, MariaDB, PostgreSQL, MongoDB, Redis, Memcached; schema design, indexing, migrations and query optimisation.

APIs & Architecture — REST, GraphQL, WebSocket; API design, JWT authentication, rate limiting, OWASP security practices; caching and performance tuning.

E-commerce & Payments — WordPress/WooCommerce, Magento 1 & 2, Shopify apps; payment gateway and shipping integrations for the Australian market.

DevOps — Docker & Docker Compose, GitHub Actions, GitLab CI, Jenkins, Linux (Ubuntu/CentOS), NGINX, Apache, Traefik, SSL automation.

Cloud — AWS (EC2, S3), DigitalOcean, Vultr, Cloudflare (Workers, Tunnels).

Also — Node.js (NestJS, Express, Strapi), Python, React/Vue; n8n and Dify for process automation.

EXPERIENCE

FGC Techlution — Full Stack Developer + AI Agent

02/2021 – Present

- Build and maintain **e-commerce sites for Australian clients** on Magento and WooCommerce: themes, payment and shipping plugins.
- Develop **backend APIs** (PHP/Laravel, Node.js) connecting storefronts with ERP and internal systems.
- Develop Odoo addons and AI solutions (RAG chatbot, AI agents, n8n/Dify workflows).
- Run the **Docker** environment and CI/CD pipelines; administer Linux servers, Proxmox VE and Mikrotik networking.
- Train and mentor interns and junior trainees.

NTQ Solution — Backend Developer

09/2020 – 02/2021 · Ha Noi, Vietnam

- Maintained and extended a **Rocket.Chat**-based communication platform: custom backend features and builds for macOS, Windows and mobile.
- Handled production incidents and coached junior developers.

FGC Techlution — Web Developer

05/2017 – 07/2020

- Built **10+ WordPress, Magento 1/2 and Shopify extensions** — payment gateways and shipping integrations — for an Australian B2B e-commerce platform.
- Developed and maintained the backend in **PHP (Laravel)** and Node.js; optimised queries and caching.
- Provisioned and ran CentOS/Ubuntu VPS: NGINX/Traefik, SSL automation, load balancing.
- Set up the team’s code review process and coding conventions.

SELECTED PROJECTS

Australian payment & shipping plugin suite — *PHP, Laravel, Magento, WooCommerce, Shopify*

10+ extensions used on B2B storefronts: payment gateway integrations (SecurePay, Fat Zebra), zone-based shipping rates and carrier integrations, order synchronisation back to internal systems. Each plugin handles callbacks/webhooks, logs every transaction and retries when the gateway does not respond.

securepay-api — *PHP, Packagist*

Client library for the SecurePay payment API, published on Packagist and reused across multiple sites: wraps the API calls, handles signing, normalises responses and throws clear exceptions for the application layer.

Internal management system on Odoo — *Python, PostgreSQL*

Built Odoo 16/17/18 addons for company staff: custom models, QWeb views, access rights, reporting, plus an Odoo ↔ ClickUp integration that lets employees report time directly inside Odoo.

OPEN SOURCE

- **fatzebra/PHP-Library** — #30: fixed empty reference & currency in `token_authorization` (merged).
- **fgct/securepay-api** — SecurePay payment gateway client library, published on Packagist.

EDUCATION

FPT Polytechnic College of Ha Noi

2013 – 2016 · Software Applications · **Very Good**

Coursework included C#/.NET, object-oriented programming, databases and web development.

LANGUAGES

Vietnamese — native · **English** — reads technical documentation confidently, good at written communication (chat/email)
